## PROFILE

Dedicated and experienced Mobile Engineer with extensive knowledge of mobile development and a passion for solving the complex and challenging problems while exploring new and exciting things.

## PROFESSIONAL EXPERIENCE

### Senior Mobile Engineer

2021 – present

*We Over I* [🔗](#)

- Led two teams totaling 6 members at W Over I, driving a pivotal initiative to establish a company-wide engineering library across all stacks. My focus on collaboration and continuous learning improved overall code quality through proactive code reviews, best practice adherence, and innovative solutions. Additionally, I provided valuable support in resolving day-to-day challenges, contributing to a harmonious and efficient engineering culture.

### Senior Flutter Engineer

2021 – 2023

*WILD.AI* [🔗](#)

Collaborated seamlessly with fellow engineers to enhance mobile apps for a thriving user base of over 50K, with 5K active users. Steered the ship as the sole mobile engineer for a two-month stint, developing key features independently, while also supporting the onboarding of new mobile talent

### Senior Mobile Engineer

2019 – 2021

*NDESKS.cin* [🔗](#)

- Led and implemented the project by providing a complete business-ready system.
- Designed and developed platforms for the co-working spaces using Flutter, Dart, Firebase, and Django.

## PROJECTS

### Calendar Package

03/2023 – 04/2023

- Crafted a sophisticated Flutter calendar package for seamless integration into applications, meticulously implementing industry best practices to ensure robust functionality, smooth user experience, and adherence to coding standards.

### Tandoor App Development

2022

Team collaboration to develop the Tandoor Plus App. Leveraged services and plugins such as locations, Getit, and providers for state management, Firebase services, the Google directions API, Google sign-in, Google maps, and notifications to ensure optimal functionality of the app.

## EDUCATION

### Bachelor in Computer Science

09/2016 – 01/2020

*COMSATS UNIVERSITY ISLAMABAD*

- Majors in Computer Science and Technology

## SKILLS

### Flutter

Dart

### Firebase

Database, FCM, Remote Configurations, Functions, Analytics, Google Sign in, etc
